Portfolio: suleymankoncagul.com | LinkedIn: linkedin.com/in/suleyman-koncagul-b3237b357

EDUCATION

Michigan State University - Bachelor of Arts, Experience Architecture **December 2026**

East Lansing, MI | Focus: Information Architecture, Accessibility, UX/UI Design, Human-Centered Design

EXPERIENCE

Getir Storehouse - UX / Operations Intern **Jun 2023 - Aug 2024**

Canakkale, Turkey

- Coordinated daily storehouse operations and a 9-person team by assigning and organizing fulfillment tasks to keep customer orders moving accurately through preparation and delivery.
- Managed inventory and storage organization by tracking where products were held and preparing required items so employees could fulfill incoming customer orders efficiently.
- Coordinated courier handoffs by preparing and organizing the items delivery personnel carried, helping move completed orders from the storehouse into the delivery workflow.

SELECTED UX PROJECTS

D2L Learning Platform Redesign **Spring 2026**

UX / Product Designer | Michigan State University | East Lansing, MI

- Redesigned assignment and course-content discovery by mapping student journeys and restructuring information architecture to make deadlines, assignments, and learning materials easier to locate.
- Created wireframes, high-fidelity Figma prototypes, reusable components, and implementation-ready specifications to translate research and UX decisions into a cohesive product concept.

MSU Arts Website Redesign **Spring 2026**

UX Designer | Michigan State University | East Lansing, MI

- Audited accessibility, navigation, and page structure using WCAG-aligned criteria and addressed 60+ alt-text needs to reduce barriers affecting readability, usability, and content discovery.
- Reorganized content hierarchy around user needs and converted audit findings into interface and information-architecture recommendations for clearer pathways to programs, events, and stories.

Pure Michigan Content Audit **Fall 2025**

Information Architecture | Michigan State University | East Lansing, MI

- Audited 500 website URLs with Screaming Frog and reviewed content and SEO signals to identify structural and findability issues across a large information ecosystem.
- Organized inventory findings into information-architecture recommendations to support clearer site structure, content hierarchy, and future content decisions.

Community Space UX Research **Spring 2025**

Human-Centered Design Researcher | Michigan State University | East Lansing, MI

- Conducted interviews with 5 MSU-area students and synthesized recurring pain points into opportunity areas for accessibility, transportation, social connection, belonging, and community participation.
